EXAMINER'S AMENDMENT

- Examiner's Note: In the amendment of February 06, 2004, applicant stated that claims 31-52 were "allowed in parent application 09/746,556." Applicant also submitted new claims 53-61. In accordance with Rule 1.126, the new claims have been renumbered sequentially as claims 31-39, and have been allowed, as indicated on the form PTOL-37.
- An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please amend the first page of the specification by inserting before the first line, the sentence:

--- This is a divisional of application Serial No. 09/746,556 filed December 22, 2000, now United States Patent number 6,733,815, which is a continuation-in-part of Serial No. 09/293,661, filed April 16, 1999, now United States Patent number 6,589,584. ---

- The following is an examiner's statement of reasons for allowance:

The instant claims are directed to a dough and resultant baked leavened product comprising a soy protein source comprising soy grits and soy flour, and added wheat gluten. The combination of soy grits, soy flour (both providing soy protein) and wheat gluten are utilized in a ratio such that they unexpectedly provide a baked leavened product having a structure and height substantially the same as a corresponding soy-free baked leavened product made with wheat flour. In the prior art, the addition of soy protein in baked dough products resulted in products which did not rise to the same height as the corresponding product without the substituted soy protein. The instantly-claimed invention overcomes this problem, with the combination of soy grits and soy flour in the appropriate ratios with the necessary wheat gluten.
